OUR PROJECTS

Important Projects of UPDESCO.....

MID DAY MEAL

The daily Monitoring System collates the number of children served Mid Day Meals in all the schools in the state through automated high availability calling cluster. These clusters generate more than two lakh calls in a very short duration daily to the personnel associated with the schools to gather the data and make available the data through internet. Each individual call puts up the question on the number of children served Mid Day Meal in Hindi with the name of the school and the concerned teacher/ Shiksha Mitra who responds by providing the data through pressing the keys on his mobile set.

1090 WOMEN POWER LINE (WPL)

The project called as '1090', a special helpline number, not only allows but also empowers the female victims of harassment to call the police and report their complaints. The calls are attended by female police officers who register the complaints electronically. The police are then able to proceed with the complaints as per the prevailing law. The helpline remains in touch with the victims through the phone and report the progress of the police action until the closure of the issue using the solution provided by Updesco. The victims are also able to call the helpline and seek information on the complaint progress.

UNIQUE IDENTIFICATION AUTHORITY OF INDIA (UIDAI)

Unique identification project was initially conceived by the Planning Commission as an initiative that would provide identification for each resident across the country and would be used primarily as the basis for efficient delivery of welfare services. It would also act as a tool for effective monitoring of various programs and schemes of the Government.

STATE DATA CENTER

The UPSDC is built upon a floor area of about 4500 sq ft. The UPSDC has multilevel redundancies, security and scalability. The SDC should be integrated with the UP SWAN for providing access to the Information Systems hosted in the UPSDC to all the Stakeholders across the State. The UPSDC complied with a world class Tier II data centre guaranteed service level of 99.749% on quarterly basis. UPSDC has a safe, secure, monitored, highly available power and cooling arrangements that is capable of accommodating 44 racks for network components and servers under centralized and simplified management.

MEGA CALL CENTER

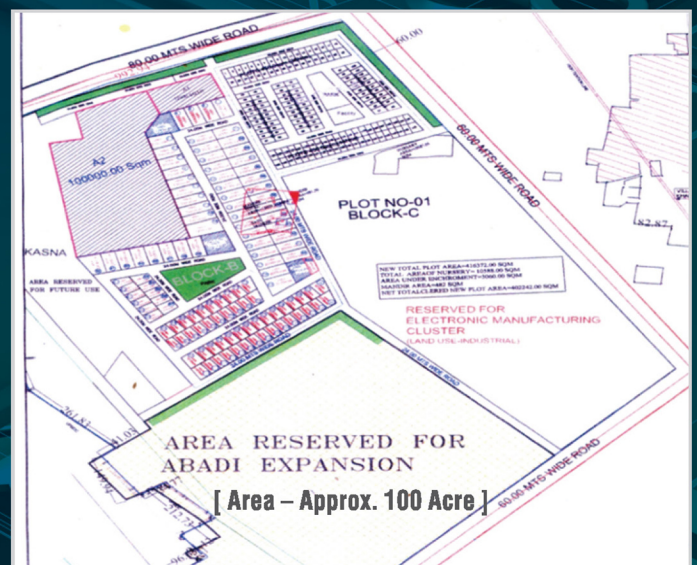

This is a key project of the State Government which is covered under one of the Vikas Agenda Sutras of IT & Electronics Department, Govt. of U.P. for the year 2015-16. The objective for establishment of Mega Call Centre is not only to sensitize the citizens about different Government schemes being run for their benefits but also to remove bottlenecks, if any, for timely execution/disbursement of the benefits, bring in required changes by way of policy amendments for smooth execution of these schemes etc. This also aims to find individual lapses, if any, during the implementation process of the schemes.

Electronic Manufacturing Cluster

- ⦿ 15 % Capital Subsidy
- ⦿ 5% interest subsidy for 7 years
- ⦿ 100% VAT/CST Reimbursement for 10 years
- ⦿ 100% exemption on Stamp Duty
- ⦿ 25% rebate on land purchase
- ⦿ EMC Infrastructure Development up to 25 crores Reimbursements on patents filing
- ⦿ Special Incentive package for Anchor units for investment more than 200 crores

Land proposed for EMC at Ecotech Sector Vi & VII, Greater Noida, U.P.

“Uttar Pradesh”

The Land of Endless Opportunities

“Uttar Pradesh with access to large consumer market, skilled manpower, proximity to raw material sources and incomparable connectivity is an ideal destination for investment and partnerships”

Shri Akhilesh Yadav

Hon. Chief Minister, Uttar Pradesh, India
